What is **Multipool**?

Insurope has been pioneering solutions for international corporations for the last 35 years.

Multipool is a multi-employer pooling arrangement that spreads risk among the participating employers and brings together economies of scale.

Our 'Multipool' solution was the first in which a percentage of each local plan surplus was paid annually as multinational dividend and it remains the market leading small groups pooling product – serving 600 multinational companies and 1,600 subsidiaries covering more than 432,000 employees.

With Multipool, smaller multinational corporations combine the results of their global insurance contracts.

In countries with a local plan surplus, a multinational dividend is paid to the client.

Any loss in the overall multinational profit and loss account in any year is automatically cancelled by the Insurope Network under a stop loss arrangement.

Multipool performance

Since 1984, Multipool clients who have had a positive pooling experience have received, on average, a multinational dividend equal to 32% of the local plan surplus (8% over the last 3 years). 76% of pooled plans on average are positive and return a dividend and 85% of Multipool clients receive dividends back.

Multipool has a **proven track record** and **excellent client service**.

100%*

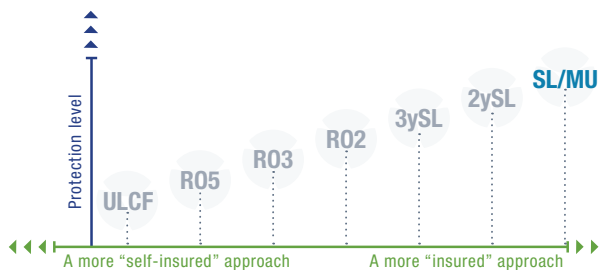

of clients would **recommend** Insurope's services to other corporations.
