

# EMPLOYEE BENEFITS **MULTINATIONAL POOLING**

An overview

# | INSUROPE

Insurope is THE Premier Multinational Pooling Network. Our network of top independent insurance companies represents the best insurers in their local markets and, together, we have been providing employee benefit services to multinational companies across the world for over 55 years.

Insurope's focus is multinational pooling, a concept which allows multinational companies to combine employee benefits insurance policies under one umbrella, and allowing them to benefit from financial and administrative advantages.

With more than 1,000 multinational clients, 80+ Network Members covering 82 countries, Insurope has been consistently ranked among the top networks in the market.

Known for its flexible and innovative approach, supported by superior service, Insurope is proud to serve as the "Network of Choice" for many international companies.

Insurers are selected to become a member of the Insurope network based on financial strength and proven proficiency in the field of insured employee benefit solutions.

## The Benefits

### RETIREMENT

### DEATH

Partner pension  
Lump sum benefit  
Orphans' pension

### DISABILITY

Short & long-term  
pension  
Lump sum benefit

### HEALTH

### AD&D

(Accidental Death  
& Dismemberment  
Insurance)

## The Principle

Multinational pooling is a financing mechanism that helps multinational companies optimize their employee benefits programs by combining policies in more than one country under a single multinational pooling program.

This approach offers advanced risk management and governance, centralized reporting, and can reduce the cost of employee benefits through multinational pool dividends.

There are **two types** of multinational pooling arrangements:

- **STAND ALONE:** company-specific used by multinationals companies who are large enough to do the pooling on their own
- and **MULTIPOOL:** multi-client available for smaller multinational companies but also bigger ones with smaller number of employee participation.

The **advantages** of multinational pooling include:

- economies of scale and purchasing power
- financial savings
- access to worldwide reporting and information
- high global Free Cover Limits

## Multinational profit & loss account

By combining the insured employee benefits with Insurope Network Members worldwide, Insurope is able, through a better spread of risk, to provide the multinational company with a multinational profit & loss account.

Through this multinational profit & loss account the multinational company and its subsidiaries receive the benefit of international profit sharing.

To simplify, this multinational profit & loss account will identify the difference between premiums and claims. Any positive balance is paid to the multinational company and/or its subsidiaries as a multinational pool dividend.

Estimates by international consultants suggest that over an extended period, an 8% to 15% reduction of local risk costs can be achieved.

	Contract A	Contract B	Total
Income Premiums	100	200	<b>300</b>
Outgo Claims	50	100	<b>150</b>
Result	50	100	<b>150</b>

Multinational pool dividend = 150

# Pooling System Features

Insurope offers a variety of pooling systems which ensure a flexible solution for the global risk financing of a multinational's worldwide employee benefits. Each system provides its own specific protection of the results of the multinational profit & loss account.

Lowest risk charge  
= no protection

Highest risk charge  
= full protection

TOWARDS MORE PROTECTION >>> >>>

- **Global free cover limits** determine the level of coverage offered by the Insurope Network Members without any medical evidence, often significantly increasing the local level available.
- **Global rating limits** protect the profit & loss account from high individual claims and are designed to provide a balance between protecting the pool result and maximizing premium pooled.
- **Administration charge:** represents the cost for the local administration of the insured benefit plans included in the pooling system. Charges are governed by an Insurope worldwide network scale.
- **Risk charge:** reflects the cost for the protection offered by the pooling system (see 'Risk Spectrum' diagram above).

#### **DISCLAIMER**

The Insurope Network ("Network") is a network of locally licensed member insurance companies ("Members") who jointly own Insurope SC/CV ("Insurope"), a cooperative company with limited liability, duly incorporated and existing under the laws of Belgium, with a registered office at Boulevard de Waterloo 16, 1000 Brussels, Belgium. Insurope is represented in the U.S. by Insurope Services, Inc., a New York licensed insurance broker. Insurope promotes the Network but does not issue policies or provide insurance; such activities are carried out by the Network Members. The non-U.S. Members are not licensed or authorized to do business in New York, and the policies and contracts they issue have not been approved by the New York Superintendent of Financial Services, are not protected by the New York state guaranty fund, and are not subject to all of the laws of New York.
